In the lobby of the House of Com-mons to-night the Tory whips gave out that the Government will proceed with the new cloture rules as urgent business before attempting to deal with other legislation. W. H. Smith has declined positively to lead the party should a proposal to postpone the cloture rules be adopted by the

The Cabinet has given way to the Churchill section on the Wolff mis sion to Turkey. Mr. Smith announced to night that the Government had de-cided not to recall Sir Henry from Constantinople

Henry Campbell says that Parnell is weak and far from well, as the result of his attendance and recent exertions in Parliament. He has drafted his Leaseholders' (Ireland) bill and will press it on the attention of the Government and the House. He has no expectation of its becoming a law, or of its principles being adopted by the Government as part of their coming land measure.

Berlin, Feb. 16.—The Nachwichten says: The threatening character of the situation across the western frontier is becoming much more acute. In view of the fact that forts have already been constructed to shelter 100,000 men, preparations are being made to shelter a similar number around Belford. We have, beyond doubt, to deal with nothing less than the strengthening of the French line to enable them at the beginning of hostilities to throw a large force across the frontier, and thus transfer operations to German territory.

VIENNA, Feb. 16. Questions asked the Government in the Reichrath yes-terday in relation to the proposed credit for military purposes elicited tinued concentration of French troops the information that Hungary would in direct contradiction of the inonly enroll in the Landsturm such structions alleged to have been issued men as already had military training, by General Boulanger. Late Paris Numerous exceptions would be made. In Austria the enrollment of men under the age of 42 years would be al most universal. Ex officers enroned. age of 60- are only fitted for ambu-lance or office work will be exempted.

St. Petersburg, Feb. 16-General Kaulbars has been appointed Military Attache to the Russian Embassy at Teheran, the capital of Persia.

STRASBURG, Feb. 16-Prince Hohenlohe, Governor of Alsace-Lorraine, issues an election manifesto, in which he says: "I desire to address the people of Alsace-Lorraine a few wellmeant words of counsel. The Government asked for the passage of the Septennate Army bill, because it is persuaded that Germany is to be threatened with the danger of war as soon as that part of the French nation which longs for war regards the military strength of France superior to that of Germany. If Alsace Lorraine wishes not to be exposed to the ter rors of another war, let peaceable, conciliatory deputies be elected to the new Reichstag—deputies who accept the peace of 1876. Those who vote to return members of the protesting (Anti-German) party, or enemies of the Government Septennate bill, will be responsible for the continuance of disquiet and the resultant injury to trade and commerce. If in some electoral districts the friends of peace find themselves unable because of pressure from political leaders to put forth candidates they would like to have elected to the new Reichstag, they may deposit blank voting papers, and in this way express their views and record the real opinions of the country. The reunion of Alsace-Lor raine to Germany must continue as long as the German empire exists. Listen only to what your conscience and good sense and your love of home, family and property dictates."

ROME, Feb. 16.—Cardinal T. Tacheran was received by the Pope to-day. Cardinal Gibbons had an audience with His Holiness this evening. The Papal Consistory has again been postponed. The date is now fixed for 14th March for the private session.

The Pope has summoned several French Bishops to confer with him respecting the attitude to be adopted by the Church toward the French Government in the event of fresh measures against the Catholic clergy of France.

Carro, Feb. 16.—The withdrawal of the annual subvention to Egypt has not been formally decided upon, Sir Evelyn Baring, the British diplomatic agent here, has informed Count D'-Aunay, the French agent, that Sir Henry Drummond Wolff's proposals include neither the recalling of the British troops nor the fixing of the date of their withdrawal from Egypt.

Rome, Feb. 16.-General Gene, commander of the Italian troops at Mas- thing in defence of the monarchy.

Sunday: "The situation is unchanged. Ras Alouk's camp is still at Gura. EUROPEAN.

New York, Feb. 16.—A cable special from London of Feb. 15th says: In Downing street to night the situation in Egypt is the absorbing tonic. The Alonk says incited him to attack us. to prevent our invading the country. Count Salimbeni confirming this, I arrested and imprisoned Mohammed Bey and informed Ras Alouk I nad done so. It rests with me to punish Mohammed Bey, as he is in my service. I asked Ras Alouk to release Count Salimbeni and his companion. Count Salimbeni confirmed the information that only the usual garrisons hostile Powers, enabling them to block | are stationed at Ghinda and Asmara, and that Ras Alouk considers the campaign ended. Count Salimbeni

New York, Feb. 16-The Star's cable special from London of February 15 says: Our telegrams from the Continent to-night report increasing mili-tary activity in all directions. The London Times' dispatches from Berhn show the relations of France and Germany, in spite of statements of minimizing gravity of the situation, to be dangerously strained. Advices from other quarters indicate growing impatience on the part of France at the prolongation of the situation and a disposition to bring matters to an issue. It is significantly asserted in French telegrams that France, al though not desiring the conflict, is now ready to defend herself.

At Pesth to-day the Hungarian Minister of Nation Defense obtained his vote of credit of 7,000,000 florins from the Diet on account of war stores, and the War Office in letting heavy contracts for all descriptions of stores for active service is the field. European opinion is unable to accept these enormous and ruinous preparations any longer as an election dodge to give Bismarck a majority in the German Reichstag, but recognizes the fact that a general war is regarded by the four great Powers as inevita-ble. The Times, summing up the situation in the Balkans, says: The serious impression prevails that peace cannot long be preserved in Europe. Austria is conscious of a pressure threatening her existence as a great Power and is prudently making ready to maintain her position in the Balkans. The whole of Macedonia is manifesting uneasiness. Russian agents are preparing the entire country for a rising and warning the population that the time is near at at hand when Russia will come to

their deliverance. New York, Feb. 15.—The Star's London cablegram says: The telegrams from European capitals are still more warlike. Berlin dispatches as-sert that the German Government has received positive advice of the con or were likely to make good soldiers. telegrams confirm the reports that the Alsace-Lorse to a war strength, being brought up to a war strength, and give additional accounts of the and give and grant troops toward the French frontier.

Vienna dispatches state that the Ministry of War have suddenly stop ped work on French and Russian contracts of magazine rifles, revolvers and munitions of war at the factories having contracts on hand. All the factories are now working exclusively on small arms and ammunition for the Austrian Government.

The Press censorship at St. Petersburg has, to a great extent, dried up all sources of information, but through Roumanian channels, it is learned that two Russian corps d'armee are completing their concentrations in the southeast and that heavy re-enforcements are going from the inter ior to the southwest.

From Constantinople it is learned to-night that M. Zankoff is urging the Porte to press the Powers for a decision on his proposals for a settle ment of the Bulgarian question. The Bulgarian representatives, acting under advice from Sir William White, are evading a definite reply and awaiting the development of events. | ing. Zankoff's proposals are supported by ORDERS PROMPTLY ATTENDED Russia and opposed by Austria, England and Italy. Zankoff has declared that no settlement short of a division of Bulgarian authority between the existing Regency and representatives of Russia will be accepted by the latter Government. The opinion prevails at Constantinople that Zankoff will return to Bulgaria to start up an insurrection and afford Russia an Chas. Gray & Co., & T. W. Rawlin excuse for intervention.

Peste, Feb. 15 .- The Government to-day submitted to the Lower House of the Hungarian Diet, a bill appropriating 7,460,000 florins to supply the Hungarian Landwehr and army reserves with stacks of arms and material, and to equip the first band of the Landsturm. All parties in the Soap Manufacturing Company. House, after a conference, agreed to vote for the passage of the bill, without debate. The measure was at once referred to the Military and Finance Committee of the House. The preamble to the bill explains that the credits asked for are demanded as the natural sequence of the adoption of the bill organizing the Landsturm, or volunteer service to be called out in time of war. The preamble goes on to say that in view of the military measures which the other European States are taking, it would be a serious omission for Austria Hungary to longer refrain from equipping the Landsturm. The empire, it is added, is interested in a peaceful progress. The efforts of the Government are directed to maintain peace, but if it is not desirable to be surprised, the Government must, like any one unwilling to sacrifice a vital interest, be prepared in case of necessity to sacrifice every-
